Resolved issues

Module	Release Note	Key	Salesforce Number	Release Note Status
Imports	Resolved an issue where imported review groups were randomly failing with an error of "Entity was not found".	RND-3398		Internal External
User Directory	Resolved an issue where an employee without a manager was given a NULL value for the manager after migrating an existing Performance (Agile) database to a detached Performance (Agile).	RND-3147		Internal External
Other	Resolved an issue where an error message of "TypeError: Cannot read property RedirectUri" was displayed when accessing the Connect connector logs within Integration Manager.	RND-3135		Internal External

Feedback	Resolved an issue where journal list page sorting was not sorting by last modified date. The list now puts most recent created or modified journal entries at the top of the list.	RND-2674	Internal External
