Resolved issues

Module	Release Note	Key	Salesforce Number
	Fixed issue where selecting the Cancel button when authoring a checklist did not close the current checklist and return to the Author Checklist page.	RND-6974	
	Fixed issue where assigning a previously completed checklist to the same user caused an alert, blocking the assigning. Users are now only blocked from assigning the same checklist to the same user only if the checklist has not been completed.	RND-6651	
	Fixed issue where a user could not cancel enrollment when a Training Event status was changed to CLOSED. Now a CLOSED Training Event remains visible to an enrolled user and the user has the option to Cancel their enrollment.	RND-6624	
	Fixed issue where Learning courses were not populated in an Onboarding Learning Task from some Learning sites.	RND-6622	
	Fixed issue where importing courses from the GO1 catalog did not display the course content objects if Content Library was selected for the import.	RND-6513	

Module	Release Note	Key	Salesforce Number
	Fixed issue where importing a collection of courses from the GO1 catalog was limited to no more than 20 courses. Now there is no limit.	RND-6490	
	Fixed issue where attempting to re-enroll a subordinate user into a course that was previously completed by the user caused an error and would not allow the enrollment.	RND-6427	
	Fixed issue where the "Mark as Complete" option for a My Team registration did not appear when the registration status was DUE.	RND-6269	
	Fixed issue where the Qualification status displayed in the PDP page when viewing from the Student Property page. The status now correctly displays the Qualification status based on the status for all the certifications in the Qualification ordered by most critical to least critical (i.e. Expired, Due, Not Met, Met).	RND-6013	
	Fixed issue where imported content objects from GO1 content import did not appear correctly as expected in the Content/Library/Content Objects list,	RND-5962
