

SilkRoad Learning Release Notes v2022.5 | December 2022

New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
	Reports that display Assignment scores now display a new score when they have been configured to use a Checklist Grading Type. Possible scores now appear as "Checklist Incomplete", PASS or FAIL. For example, the Student Training History and Student Training Combined reports display this new Assignment score.	RND-7253	
	The label for the Creation Date field in Content Object properties has changed to Import/Creation Date. This field is a read-only field and is populated when a content object is created manually or as part of the content import process.	RND-7209	
	When submitting a Checklist, users now have the option of submitting the checklist as either PASS or FAIL. Selecting either button submits the Checklist as complete and assigns a score of either PASS or FAIL. The Checklist can continue to be saved using the SAVE button, which sets the checklist status to be In Progress and the score to be Checklist Incomplete.	RND-6414	
	Reports that display Assignment scores now display a new score when they have been configured to use a Checklist Grading Type. Possible scores now appear as "Checklist Incomplete", PASS or FAIL. For example, the Student Training History and Student Training Combined reports display this new Assignment score.	RND-6413	
	Assignments configured with a Checklist grading type now provide a score of either PASS or FAIL instead of Checklist Complete. Assignment with an In Progress Checklist configured display the same score of Checklist Incomplete as they do now.	RND-6412	
	Checklists now provide the ability to set a score for a submitted Checklist to be either PASS or FAIL. This new status appears in the Assess Checklist page, along with "Not Started" or "In Progress" status.	RND-6411	

Module	Release Note	Key	Salesforce Number
	A new Checklist Details report is now available. Privileged admin users can now add a Checklist Details report and configure it to generate reports that include all data stored in a Checklist record for any student. Filters available for this report include: Students, Mastery Date, Checklist, Status, Supervisor, and Language.	RND-6409	
	A new Report query (CheckListDetails) is now available that returns Checklist data, including the contents of all fields in the checklist for any Checklist records.	RND-6408	
	eCourse properties now contain a field that displays the Import/Creation Date time. This field is populated when an eCourse object is created either manually or through a course import. The field is read-only and cannot be edited.	RND-6352	
	Added Position field to StudentTraining History_V2 report query and StudentTrainingPlan_V2 Report Queries	RND-5831	
	A new status column (Current/Legacy) is available when adding new products to a Course Catalog so users can view the status of the product they wish to add to a Course Catalog. Users can also filter the product list based on the product status.	RND-5830	

11 issues

Resolved issues

Module	Release Note	Key	Salesforce Number
	Fixed an issue where the Personal Development Plan displayed from a Student property in the Admin portal did not correctly display the status for Qualifications that contained certifications whose status was all MET.	RND-7171	

Module	Release Note	Key	Salesforce Number
	Fixed an issue where assessing Training Activities or Assignments that have multiple file attachments caused misalignment of rows, making it difficult to determine which records the attachments were associated to.	RND-6627	
	Fixed an issue where users could not set a Calendar Rule for a Non Working Day when defining company calendar rules.	RND-4286
