Name	Tracking ID	Support Case	Description
Preview Notifications	RED-6729		Allows a notification administrator to preview all system notifications and easily make edits.
Export Notifications	RED-11671		Allows a notification administrator to export the notification configuration for review outside the system.
Exclude Category values in Task Definitions	RED-4476	530273	Allows a task administrator to specify the category values that a task does NOT apply to.
Option to exclude people pickers from data segmentation	RED-10825		Allows a system administrator to identify if data segmentation applies to all people pickers or exclude those that do not expose the employee record.
Add acknowledged PDFs to eForm PDF	RED-11185		Allows an eForm administer to specify if a PDF that is acknowledged from a form to be included when the form is printed.
Provide consistant behavior when tasks are completed.	RED-8888		When a task is completed the user is brought back to the page they were on before starting the task.
Updated E-Verify Case report filter options	RED-11612		Updated the filter options on the E-Verify case report to be clearer.
Include Event Report filters on PDF	RED-10891		Added the filters that are specified on the Event report to the PDF export of the report.
Total pages and results in grids	RED-1747	369174	Added the total pages and records results grids throughout Onboarding.

Resolved issues

Tracking ID	Support Case	Description
RED-11806		Added audit note when new languages are installed.
RED-11070		When navigating a category hierarchy to select a leaf node, you can now click on parent category value names or the + symbol to drill into the child values.
RED-11506		Addressed issue that not all selected category values would appear as selected.
RED-10825		Allows a system administrator to identify if data segmentation applies to all people pickers or exclude those that do not expose the employee record.
RED-10832		Prevent eForm builder field names from ending with a period (.)
RED-11185		Allows an eForm administer to specify if a PDF that is acknowledged from a form to be included when the form is printed.
RED-11321		Remove unknown HTML from eForm builder static text fields.
RED-11605		Improved the display of list item bullets on the PDF; now a 'dot' is used—not an asterisk.
RED-11713		Corrected error when an eForm from the library has been modified on the client site and a new version is published in the library.
RED-11444		Improved the listing of items output based on the selection of export type.
RED-11389		When selecting events to be exported, all events can be unselected or selected using the linked text at the top of the list.
RED-11584		Addressed issue when certain combinations of documents were used on the Form I-9 that were not transferring to E-Verify correctly.
RED-11826 RED-11867		Addressed issue to properly allow a case to be closed as a duplicate while not reopening the Form I-9 tasks.
RED-11795		Corrected issue that prevented editing all the localization values in one language.
RED-11746		Added a click/tap event in addition to hover to the user icon.
RED-11705		Improved the way that print all forms operates to ensure it works on a mobile device.
RED-6729		Allows a notification administrator to preview all system notifications and easily make edits.
RED-11212		Added a notification token for the Talent Center URL.

Tracking ID	Support Case	Description
RED-11671		Allows a notification administrator to export the notification configuration for review outside the system.
RED-8888		When a task is completed, the user is brought back to the page they were on before starting the task.
RED-11532	730542	Corrected issue that prevented an employee from using the upload control when attempting to upload a document.
RED-10891		Added the filters that are specified on the Event report to the PDF export of the report.
RED-11612		Simplified the searching on the E-Verify Case Report when only searching based on a case number.
RED-11491		Updated the GetCompletedForms and GetCompletedFormsEx method to properly respect the Event parameter to limit results.
RED-11555	730801	Updated the task definition export to CSV to better handle Unicode characters.
RED-11569 RED-11571		Addressed issue to prevent creation of inaccurate audit notes when only a task definition name is changed.
RED-11602		Added additional languages packs for the upgraded task and notification editor buttons.
