

SilkRoad Onboarding

Release Notes

Minor Releases for 2019.1

2019.1.1, 2019.1.2

March, April 2019

2019.1

API changes

This table summarizes changes available in the Onboarding API after upgrading to 2019.1. SilkRoad generally ensures that API changes are backward compatible so that previously built integrations are not impacted. Changes to method output are deployed with an XSLT that removes the additional output until the transformation is manually removed in the Onboarding user interface.

Tracking ID	Method	Description
No additional changes at this time		

Resolved issues

2019.1.1

Tracking ID	Support Case	Description
ACT-8904		Addressed issue where a very long configuration value caused custom fields in the profile to not display in the Onboarding user interface.

2019.1.2

Tracking ID	Support Case	Description
SWFT-9034		Addressed issue after Safari update Version 12.1 that impacted the display format of dates on eForms opened from the employee profile.
SWFT-8978		Addressed issue that caused image files included in the download package to not fit on a page.
