SilkRoad Onboarding

Release Notes
Minor Releases for 2019.2
2019.2.1, 2019.2.2
May 2019

2019.2

API changes

This table summarizes changes available in the Onboarding API after upgrading to 2019.2. SilkRoad generally ensures that API changes are backward compatible so that previously built integrations are not impacted. Changes to method output are deployed with an XSLT that removes the additional output until the transformation is manually removed in the Onboarding user interface.

Tracking ID	Method	Description
		No additional changes at this time

Resolved issues

2019.2.2

Tracking ID	Support Case	Description
SWFT-9535		Addressed issue that resulted in data not being properly output to Excel and XML report downloads.

2019.2.1

Tracking ID	Support Case	Description
SWFT-9348		Improved the processing of how the download package is compiled to reduce the time to deliver the PDF to the user.
SWFT-9405		Updated the validation used for the I-94 on the Form I-9. USCIS announced that starting in May 2019 a character can be included in the I-94 number.
