New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
Dashboard	A URL location can be added to the header image that is displayed in the Onboarding user interface. The URL can be set for each image on the Logos tab of the Onboarding settings.	SWFT-10500	
Download Package	When using an external signing service, the signature validation of eForms can be delayed from the task where the eForm is completed to a task that includes a download package. In this case, the download package is sent to the signing service and all the signatures are executed at once. Only a single digital signature can be executed per package.	SWFT-9910	
eForms	A digital signature can now be selected when specifying the type of third-party signature to use for eForms. A digital signature must be used for an EU specified "Qualified Electronic Signature".	SWFT-10407	
Employee Purge	Updated the date fields on the Manage Employee Purge page to ensure the value displayed is localized based on the selected browser language.	SWFT-10371	
Employee Record	Users who can edit Onboarding settings can now change the labels for the mobile and work phone number fields. When these labels are set, the fields display in the Details section of the Employee Profile.	SWFT-10581	
Localization	Improved selected French language translations.	SWFT-10408
