SilkRoad Onboarding
Release Notes
2020.2 | April 2020

API changes

No API changes at this time.

New features and improvements

New features and improvements are summarized here. Need more details? Click here.

Module	Release Note	Key	Salesforce Number
I-9 Form	The Form I-9 search is enhanced to allow inclusion of Forms I-9 that include any data in the Additional Information field. The I-9 Search also can be used to include or exclude Forms I-9 where the delayed physical examination text has been added to the Additional Information field.	SWFT-11398	
I-9 Form	Client administrators who can update Form I-9 settings can identify if the COVID-19 text for delayed physical examination of documents should display on the I-9 tab of the employee profile. The options for this setting are: Default, Display and Hide. When set to Default, SilkRoad controls the display of this text. SilkRoad displays the COVID-19 specific text for six to nine months following the termination of the temporary-delayed physical document review.	SWFT-11387	
I-9 Form	In the Other section of Manage Localization, client administrators can customize the default text that can be added for the delayed physical review of I-9 Document for COVID-19 accommodations.	SWFT-11386	
I-9 Form	The I-9 tab of the employee record now allows users to place a note on a completed I-9 in the Additional Information field of section 2. When users update this field, their initials and date/time are automatically added to the note. Default text for delayed physical inspection of Form I-9 documents based on DHS/ICE guidance has also been added to make it easier to record these inspections.	SWFT-11384	

4 issues

Resolved issues

Module	Release Note	Key	Salesforce Number
eForms	Improved the valuation error message by removing a space between the validation message and the field name.	SWFT-11422	
Employee Record	Increased the length of the following fields on the employee record: Email address, First, Middle, and Last names to 250 characters.	SWFT-10497	
Reports	Corrected issue that displayed the Operational Dashboard for users who are not configured to access any criteria.	SWFT-11593
