

**SilkRoad Onboarding
Release Notes
Minor (patches) for 2020.2
2020.2.2 - 2020.2.4 | June 2020**

API changes

This table summarizes changes available in the SilkRoad Onboarding API after upgrading to 2019.2. SilkRoad generally ensures that API changes are backward compatible so that previously built integrations are not impacted. Changes to method output are deployed with an XSLT that removes the additional output until the transformation is manually removed in the SilkRoad Onboarding user interface.

2020.2.2

Module	Release Note	Key
Security SOAP API	Add two new privileges that control access to audit report data when extracted from the GetAuditReport API method. Audit Report does not include changes to the user profile. Audit Report including profile information includes change to the user profile.	SWFT-10555
SOAP API	API Method: GetAuditReport. Removed the requirement to include the EmployeeIDFilter in the GetAuditReport API call. Users can access the method specifying only a date range if desired.	SWFT-10831
SOAP API	API Method: GetAuditReport. Added a team filter to the input of the GetAuditReport method to allow for selection of audit records based on a team.	SWFT-10551
SOAP API	API Method: GetCompletedFormsList. Extended API method to allow specification of the event status in the event filter. Extended the output to include event status in the returned list of forms, remove the XSLT to receive the extended output.	SWFT-9398

Resolved issues

2020.2.2

Module	Release Note	Key	Salesforce Number
Category Management Data Segmentation	Corrected issue that prevented category value updates when moving category values to new parents in the category that is used for data segmentation.	SWFT-10338	00797530
eForm Builder	Corrected the screen reader reading of radio and checkbox selections.	SWFT-11547	
eForm Builder	Corrected the screen reader reading order of address blocks on eForm Builder forms.	SWFT-11544	
SOAP API	API Method: GerUserProfileEx2. Corrected an issue where employee information related to an E-Verify case was not included in the nodes within the EVerifyCase node.	SWFT-11463	00813178
Task Management	Corrected issue with changing task expiration configuration.	SWFT-11642	

5 issues

2020.2.3

Module	Release Note	Key	Salesforce Number
E-Verify	The E-Verify Case Closure reason has been added to the I-9 tab of the profile.	RND-257	
E-Verify	Added the E-Verify case closure statement to the printout (PDF) of the Case Details page to match fields displayed when viewing the E-Verify Case Details page.	RND-254	
eForms	Corrected issue that caused extra spacing on offer letter PDFs in the previous release of Onboarding (2020.2.2).	RND-665	

Task Management	Corrected issue with recalculation of task expiration dates. Now when the task definition is updated, the expiration date of tasks of events that have been launched will be recalculated based on the updated criteria in the task definition.	RND-272	00811070
-----------------	---	---------	----------
