## 2020.4.2

Module	Release Note	Key	Salesforce Number
Dashboard	Corrected issue on narrow screens where the navigation menu, site logo, and search field overlapped. On narrow screens the search box collapses to an icon that must be selected to open the employee search field.	RND-2349	
I-9 Form	Corrected access to the Additional Information field on the I-9 tab of the Employee Profile to ensure that it is displayed and editable if the most recent Form I-9 was used to complete Section 3.	RND-869	
Reports	Corrected issue that made it difficult to download the Event Report after customizing the fields that are to be included in the download. You no longer have to close the Show Advanced search panel.	RND-2506	
Task Management	Added a button to expand the Task Definition page view to use the entire width of the browser window. The button is a double arrow next to the Version History button at the top of the Task Definition list.	RND-2502	
Task Management	SilkRoad Onboarding will update the task and course status for tasks that include a link to a SilkRoad Learning eCourse without the user having to refresh the page.	RND-2076

## 2020.4.4

Module	Release Note	Key	Salesforce Number
eForms	You can now configure an eForm where all the fields are read-only to complete in a task. Any field validation must be met by the default values of the fields. Previously, at least one field that allowed input was required.	RND-1972	
Security	New privilege: Edit All Users - XML page. This privilege controls access to the Employee XML Edit User interface page in the Administration menu. This page can now only be accessed by members of a team that has the Edit All Users - XML page privilege. To submit edits, a user must also have the Edit All Users privilege.	RND-2686	
Task Management	Updated task reassignment from the Event Summary page to provide the same options for limiting assignee selection by team as the Task Summary page.	RND-2563
