Minor Release Notes for 2021.1
2021.1.1 - 2021.1.2 | January 2021**

New features and improvements

2021.1.1

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
I-9 Form	The Form I-9 section 2 task can now be assigned to an email address. An email notification is sent to the email address, which allows the user to access only that one task to complete Section 2 of the Form I-9. For more information, see What's New in 2021.1.1. This feature only applies to the section 2 task for Form I-9.	RND-1105

2021.1.2

Module	Release Note	Key	Salesforce Number
Dashboard	The width setting throughout SilkRoad Onboarding has been removed so that the main page content fills the width of a browser window.	RND-2919	
I-9 Form	Improved the display of tasks assigned to an email address by removing task details from the task summary viewed by the external users.	RND-3009	
I-9 Form	Improved the assignment of I-9 section 2 tasks to an email address by setting the assignee back to an internal user when a completed section 2 task is reopened. The task can be manually reassigned back to an email address after it is reopened.	RND-2978	

I-9 Form	Improved the assignment of Form I-9 section 2 tasks to email addresses by adding the ability to assign Form I-9 section 2 tasks from the Task Summary page.	RND-3008
Other	Removed all Adobe Flash components of SiteGen and replaced with standard HTML navigation and functionality. The functionality to customize the columns in the content listing was removed and not re-implemented without Adobe Flash.	RND-256
Task Management	An audit note will now be added when an event workflow is modified when the event is launched. In addition to notes for the individual tasks added or removed from the configured event, the following note is added: "The tasks in {eventname} were modified when the event was launched."	RND-635
