

**SilkRoad Onboarding  
Release Notes  
2021.5 | November 2021**

# New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
Security	Added more security to prevent unauthorized users from updating other user's information via the Edit Profile pages within a portal.	RND-4775	
Security	Updated the visibility to the Find Employee search field, located next to a user's Avatar, hiding it from users who do not have permissions to search for employees. This also prevents users from accessing user information via the quicksearch API.	RND-4773	
Security	Added additional security to prevent an unauthorized user from accessing the Route APIs.	RND-4772	
Task Management	Added the ability to configure a task to launch an event when completed by the task assignee. Existing event information can be mapped in the task definition so that the task assignee has the fields pre-populated while allowing any missing or incorrect information to be adjusted before task is completed.	RND-2263	
Task Management	Added the ability for any task to initiate an integration by adding a specific URL and static text to the task. When the task is completed, a specific set of user and event data is sent to the configured URL.	RND-1497	
Task Management	Updated SilkRoad Learning course tasks to return the user to their task list instead of the task summary.	RND-2998	

6 issues

## Resolved issues

Module	Release Note	Key	Salesforce Number
Imports	Resolved an issue where Imports was throwing a 401 error message after being enabled.	RND-4334	
Shared Dashboards	Resolved an issue where a shared dashboard Sharee could not complete an eForm builder form with a signature.	RND-3564	
Task Management	Resolved an issue where tasks were expiring based on the creation date instead of the configured activation date.	RND-4288	

3 issues

## Known issues

Module	Release Note	Key	Salesforce Number
eForms	If a PDF that has a signing certificate applied is converted to a PDF/A format by SilkRoad, the signature will be invalidated because the PDF has changed. SilkRoad will need to prevent conversion of these PDFs. PDFs are converted in the UI by <a href="#">RND-1183</a> or the API by <a href="#">RND-1181</a>	RND-2909
