

SilkRoad Recruiting

Release Notes

2019.4

June 2019

New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Name	Tracking ID	Support Case	Description
ATS – Bulk reassignment of jobs	OH-34261		<p>You can now reassign jobs to recruiters and recruiting managers in bulk.</p> <p>On the Jobs Advanced Search page, select jobs (max of 10 at a time), select either Reassign Recruiter or Reassign Recruiting Manager from the <i>Take Action</i> drop-down and click Go. On the pop-up, enter a user name (type-ahead feature fills it in for you) and click Save. The jobs are reassigned to that user.</p>
ATS - Add CX Admin link to the ATS Header	OH-41272		<p><i>Candidate Experience Admin Portal</i> link now appears in the ATS header. It displays for clients who have their Candidate Experience configured and have been assigned the Configure Candidate Experience permission. When you click the link, a new tab opens, and the Candidate Experience Admin Portal login page appears.</p>
ATS - Enter & Consent Date filter improvements	OH-41436	787498	<p>Two additional filters are now available on the Candidate Advanced Search page:</p> <ul style="list-style-type: none">· Entered in the last· Consented in the last <p>You can choose between days, weeks or months for each of those filters and type in the exact number of days, weeks, months that you want to search.</p> <p>The system default search is set to <i>Entered in the last 90 days</i> but you can change it.</p>

Name	Tracking ID	Support Case	Description
ATS - Allow users to require some of the non-required fields on the Requisition & Job pages	OH-41921		<p>In 2019.1, we added the ability to hide most of the non-required fields on the Create/Edit Requisition and Job pages.</p> <p>In this release, we added the ability to mark non-required system fields as required. This functionality was added to the same settings on the Settings page that we added to allow for hiding of non-required fields on the Create/Edit Requisition and Jobs pages:</p> <ul style="list-style-type: none"> · Displayed Job Fields · Displayed Requisition Fields <p>Note: When the <i>Required</i> checkbox is checked for a field that is currently not selected to be displayed, the <i>Display</i> checkbox for that field is then automatically checked.</p> <p>And if the <i>Display</i> check is removed from a field that is marked as required, then the <i>Required</i> checkbox is also unchecked.</p>
Candidate Experience - Job Search - Location by Country, State, City	OH-40935		<p>Multiple location choices are now listed in the location filter of the Candidate Experience career site.</p> <ul style="list-style-type: none"> · Country · County – State · Country – State – City <p>Selecting any of these options and running the search allows you to then copy the URL of that search and use it as the link anywhere on a website.</p> <p>Example: Select <i>United States – Florida</i> and run the search. Copy the URL and use it as a link on your website where you want to advertise jobs available in Florida. Or select just <i>Canada</i> and then copy that URL to provide a link to jobs in Canada.</p> <p>Reminder: The system only lists locations in the search filter that have at least one job linked to them.</p>

Name	Tracking ID	Support Case	Description
Candidate Experience - Change the font format used for all text	OH-41288		<p>A new <i>Font</i> setting is available on the Career Site Settings page in the Candidate Experience Admin portal.</p> <p>An admin user can select a font from a pre-determined list of available fonts to match the font used on the corporate website. All external facing text of the Candidate Experience is displayed in that selected font.</p> <p>Note: All UI testing was done with the default font <i>Open Sans</i>. It is up to the admin user to ensure that a selected font does not cause any UI issues. If issues are found, select a different font—and report the suspect font to SilkRoad.</p>
Candidate Experience - Admin - Quick view for inactive portals disabled	OH-41454		<p>The quick view (eyeball icon) feature in the Candidate Experience Admin portal for inactive career sites is now disabled.</p>
Candidate Experience - Google Maps added to Job Details Page	OH-41485		<p>We added a new <i>Google Maps on Job Details Page</i> setting to the <i>Google Integrations</i> setting in the Candidate Experience Admin Portal.</p> <p>When enabled, an embedded Google Map appears above the Apply button at the bottom of the Job Details page.</p> <p>The map shows a red outline of the city where the job is located.</p> <p>Note: The street address is not yet part of the location information of the job; therefore, the system cannot provide a map to the exact job location. This will be a future enhancement.</p>
Candidate Experience - Width of lists for mobile screens increased	OH-41611		<p>When viewing any list (jobs list, settings list, etc.) on a mobile screen, the list took up additional left/right space. Left and right margins were removed and about 56px of width was gained.</p>
Candidate Experience – Share jobs on social media sites	OH-41738		<p><i>Enable AddThis Plugin</i> setting was added on the General settings page of the Candidate Experience Admin portal. When enabled, a floating bar appears on the left side of any Job Details page. (On a mobile device,</p>

Name	Tracking ID	Support Case	Description
			it appears above the Job Title.) The floating bar contains three social network sites. Each website visitor sees the social networks they interact with most frequently and a + icon. Clicking + provides additional social network options for sharing.
Candidate Experience - Open Submission - Configurable Apply Form	OH-41768		<p><i>Open Submission</i> setting was added to the Candidate Experience Career Site Settings page. An admin user can enable/disable the open submission functionality. The admin user can choose between using the simple Quick Apply form (First Name, Last Name, Email Address & Resume Upload) or configuring a custom open submission form. Configuring an open submission form works the same way as configuring the job application form.</p> <p>Note: Because CQE questions are tied to a specific job, that option is not available for the open submission form.</p>
Candidate Experience - Find Your Account - Remove redundant info	OH-41772		Redundant text on the <i>My Account</i> page was removed. The page now looks a cleaner and is not cluttered.
Candidate Experience - UI for multi-select of locations	OH-41836		On the Candidate Experience Job Search page, job seekers can now select up to five locations at a time from the listed options in the location filter.
