

SilkRoad Recruiting Release Notes v2019.6

September 2019

New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
ATS	The Business Unit column is now available on the Jobs page. This improvement is part of the process to eliminate the Track My Jobs, Track All Jobs, and Manage Jobs pages in the near future.	OH-43057	
ATS	The Department column is now available on the Jobs page. This improvement is part of the process to eliminate the Track My Jobs, Track All Jobs, and Manage Jobs pages in the near future.	OH-43053	
ATS	<p>Currently, when a Recruiting Manager user navigates to Recruiting Activities -> Job Cycle Time in the left hand navigation menu and clicks on the name of any recruiter user that is listed, the RM user is presented with a list of jobs assigned to that recruiter user whose name he/she just clicked. With this ticket we made several updates to this page/functionality.</p> <ul style="list-style-type: none">• Instead of linking the Recruiter name in each row, we now made the numbers that display for Total Jobs and Filled Jobs for each recruiter a link, and when the user clicks on one of those links, he/she gets routed to the Jobs page with the appropriate filters applied.• We also made some HTML/CSS changes, so that the look & feel of the page is now consistent with the Jobs & Resumes pages.• We also made an improvement to the counts themselves, which now take data segmentation rules into account.	OH-42601	
ATS Candidate Experience	You can now capture an applicant's electronic signature and signed date <i>directly</i> on the Candidate Experience applicant form. Admin users can add Signature and Signed Date fields to the configurable application form. Both fields can be set to be required or not. The labels can be customized. On the application form, an applicant enters their name and selects a date. This information is then stored on the Summary tab in the Candidate Profile in the ATS.	OH-42087	
ATS	Improvements were made to the underlying code of the Jobs page. It will help with the overall performance of that page, resulting in faster load times.	OH-42525	

ATS	When editing a job category, a message with a link to active jobs appears at the bottom of the page. This link makes deactivating a job category easier because it routes you to the Jobs page. It opens with the jobs pre-selected and the reassign jobs bulk action pre-populated. Click Go to start the reassignment process. (The active jobs link is permission-based. You only have access to jobs that your permissions allow. You can reassign your jobs, but there may be other jobs that someone else must reassign.)	OH-42597
ATS	When editing a business unit, a message with a link to active jobs appears at the bottom of the page. This link makes deactivating a business unit easier because it routes you to the Jobs page. It opens with the jobs pre-selected and the reassign jobs bulk action pre-populated. Click Go to start the reassignment process. (The active jobs link is permission-based. You only have access to jobs that your permissions allow. You can reassign your jobs, but there may be other jobs that someone else must reassign.)	OH-42589
ATS	Some updates to the Company Location page: <ul style="list-style-type: none"> Jobs linked to a company location are no longer listed at the bottom on the page. Instead, job list is available by clicking the View Jobs button. Deactivating a company location is easier. A message with a link to active jobs appears on Company Location page. Click the link. The Jobs page opens with the jobs pre-selected and the reassign jobs bulk action pre-populated. Click Go to start the reassignment process. (**The active jobs link is permission-based. You only have access to jobs that your permissions allow. You can reassign your jobs, but there may be other jobs that someone else must reassign.) 	OH-42582
ATS	All the SilkRoad logos have been updated to display the new SilkRoad Technology logo.	OH-42876
ATS	The Jobs page now has a Positions Filled column. Column data appears in this format: 1/1 or 0/1 or 2/5, etc. The first number is the number of candidates moved into the Hired stage. The second is the number in the Number of Positions field on the Job Posting Details page.	OH-42815
ATS	The Original Source field (Edit Profile page of the Summary tab on Candidate Profile) is now a type-ahead field.	OH-42787
ATS	The Available Jobs field (Candidate Profile when selecting Create New Profile or Change Job option) is now a type-ahead field.	OH-42779
ATS	A tool tip now appears when you point the cursor to a column header label of a sortable column. The tool tip is: Sort by <i>(name of the column header)</i> .	OH-42755

ATS	<p>Some improvements to the Jobs Dashboard and Jobs page:</p> <ul style="list-style-type: none"> • Each chart element now links to the Jobs page with the appropriate filters applied by default. • The query that populates each chart element has been updated to use the same data segmentation rules as the Jobs page so that the counts match up between the chart and the Jobs page. • Posting Status filter and column added to the Jobs page to let users quickly change posting status of jobs directly on the Jobs page. 	OH-42609
Candidate Experience	The SilkRoad banner logo has been updated to the new SilkRoad Technology logo.	OH-43065
Candidate Experience	When editing a department, a message with a link to active jobs appears at the bottom of the Edit Departments page. This link makes deactivating a department easier because it routes you to the Jobs page. It opens with the jobs pre-selected and the reassign jobs bulk action pre-populated. Click Go to start the reassignment process. (Tip: The active jobs link is permission-based. You only have access to jobs that your permissions allow. You can reassign your jobs, but there may be other jobs that someone else must reassign.)	OH-42593
Candidate Experience	To make it easier for screen readers to navigate the Candidate Experience, various improvements were made to ensure the application is WCAG compliant.	OH-42953
Candidate Experience	When a job seeker is routed to the Candidate Experience application form from a third-party job board and the job they are seeking is no longer available (job is on hold, was deactivated or closed, or status changed to internal, executive, waiting approval), a message is displayed rather than an error code (like in the past). The message is: <i>We apologize for the inconvenience, but we cannot find this position. Please view our current openings here.</i> (Here is a link to the main Candidate Experience Job List page.)	OH-42836
Candidate Experience	<p>Address 1 and Address 2 have been added to Location Details section on the Job Details page, if this information was entered on the job posting in the ATS. Address 1 and Address 2 (in addition to city, state, country) are displayed in the following areas:</p> <ul style="list-style-type: none"> • Job Details browser tab title • Configured Job Details page when location is set to be displayed • Google Maps • Google Job Postings <p>If the address entered on the Candidate Experience Job Details page is a valid, the exact location is now marked by a red pin on the map. This makes it easy for applicants to view the job's exact location and get directions from the Google Maps. However, if Address 1 is not set on the job posting in the ATS, then no street address info is displayed.</p>	OH-40697

Resolved issues

Module	Release Note	Key	Salesforce Number
Candidate Experience	A title attribute, with a value of "Embedded Google Map of job location: (location)", has been added to the Google Maps iFrame. This helps keep Candidate Experience WCAG 2.0 compliant.	OH-42026	
ATS	Label elements on the Font Preview page (accessed from the Manage Font page) now have controls. This change helps keep Candidate Experience WCAG 2.0 compliant.	OH-42059	
ATS	When you set requisition and job fields to be required (via the Settings page), those fields now have a red asterisk, which indicates they are required.	OH-42989	
ATS	A security update in the 2019.6 release caused an issue that left some ATS users unable to remove attachments from job postings.	OH-43152	00799137
