New features and improvements

New features and improvements are summarized here. Need more details? Click [here](#).

Module	Release Note	Key	Salesforce Number
ATS	When editing a fee agency, users will now see a new section at the bottom of that page that lists the URL(s) to the fee agency sites.	RND-458	
ATS	With this ticket we added the ability for ATS users with proper permissions to export search results from the Resumes page.	RND-460	
ATS	With this ticket we made an enhancement to the Change Disposition modal window on the Candidate Profile page. When a user updates the disposition, closes the window, then reopens it, the disposition that was last assigned to the user will now display in that modal window.	RND-468	
ATS	We aligned the tables on the Reviews Status: Requested page.	RND-572	
ATS	With this ticket we made adjustments to the UI of the Manage Resources page.	RND-573	
ATS	On the Jobs Advanced Search page, we added a new column called "Posted Job Title" to the available columns and renamed the "Job Title" column to read "Internal Job Title".	RND-1264	
ATS	The Requisition History table, which lists all of the job postings that an applicant has applied to, has moved from the Summary Tab of the Candidate Resume Profile page to a new tab called Requisition History. This table is no longer paginated and matches the UI of other tables.	RND-1274	
ATS	With this ticket we adjusted the buttons on the Activity Status page to match the buttons in the rest of the system.	RND-1275	
ATS	With this ticket we adjusted the 'Edit Evaluations' button on the Evaluations tab to match the buttons in the rest of the system.	RND-1276	
ATS	With this ticket we adjusted the buttons on the Attachments page to match the buttons in the rest of the system.	RND-1277

ATS	With this ticket permissioned users can now export search results from the Jobs page.	RND-1315
ATS	On the Resumes page, users will now see a resume preview icon next to each candidate name. When clicked, a new window will display the HTML version of the candidate's resume. If a keyword search was performed prior to clicking on the icon, the keywords will be highlighted in yellow.	RND-2095
ATS	We added 2 new user-based permissions for activating and for deactivating job postings. By default, these 2 new permissions are assigned to all Admin, Recruiter & Recruiting Manager users. System Administrators can remove these permissions from any users that they may not want to allow to activate and/or deactivate job postings.	RND-2096
ATS	We updated the UI of the candidate ranking criteria pages to match the UI of the rest of the application.	RND-2127
ATS	With this ticket we added a new filter called Current Hiring Stage to the Job Statistics Candidate EEO report. When selected, only candidates that are currently in the selected hiring stage are returned.	RND-2301
ATS	On the Candidate Resume Profile page, we edited the "EEO/AA Profile" option on the "What would you like to do with this candidate" to include the "Non-Binary" option when the new EEO/AA Info setting is enabled.	RND-3529
ATS	With this ticket we added a new EEO/AA Info option to the Settings page in the ATS. The option defaults to off, but when enabled it will the display the "Non-Binary" option when the gender question is displayed on the EEO/AA Profile pages. This setting does not affect the display of any new Non-Binary report columns, which are now included in all reports that return gender information.	RND-3531
ATS	With this ticket we added the Non-Binary option to the 2007 and up - Hired Candidate EEO-1 Data Extraction.	RND-3532

ATS	With this ticket we added the Non-Binary info to the Hiree Export - Alternate Version report.	RND-3546
ATS	With this ticket we added the Non-Binary option to the EEO/AA Profile Modal Window that displays when the ATS user selects the 'EEO/AA info' option in the left hand navigation menu under CANDIDATES, and then selects a Job and then a Candidate. The options will display in this modal if the new EEO/AA Info setting on the Settings page in the ATS is enabled.	RND-3852
ATS	With this ticket we made the update to include the 'Non-Binary' option in the information that is being sent to Onboarding when the client utilizes the 'Rollout the RedCarpet' integration.	RND-3854

ATS	With this ticket we made the update to include the 'Non-Binary' option in the information that is being sent to Onboarding when the client utilizes the 'Recruiter Lobby' integration.	RND-3855
ATS	With this ticket we added the Summary tab on the Candidate Profile page to the Download and the Print Profile actions. Now, when either one of these actions is selected, the entire content of the Summary tab is included in the printout or the downloaded PDF file.	RND-3911
ATS	With this ticket we made an enhancement that now considers any additional location the job has been assigned to in the count of the 'Job Postings' column on the Company Locations Admin page.	RND-3977
ATS	A new, improved Help system is now available. The Help system now has a landing page that highlights new and popular features, provides quick links to release notes, and more. Easily search for topics, save searches, mark topics as favorites, and share topics with colleagues.	RND-3982
ATS	With this ticket we updated the data segmentation logic of the View Job Offers page to be the same logic we use on the Jobs page.	RND-3989
ATS	With this ticket we made an enhancement that will allow for more accurate source tracking of applicants. When applicants select the Indeed Apply option on a career site, those applicants will now see the How Did You Hear About Us? question, allowing them to select the correct source, rather than entering the ATS with a source of Online.	RND-4342
ATS	With this ticket we added the ability for user to add up to 10 additional locations to any requisition that is being created or updated.	RND-4357
ATS Candidate Experience	ATS user who have been assigned the Candidate Experience Admin permission are now being logged into the Candidate Experience Admin portal automatically when clicking the link under the avatar in the ATS.	RND-4519
ATS	With this ticket we added a new default option of Select One to the EEO-1 Job Category drop-down on the Job Posting page. This way, one of the EEO-1 job categories isn't automatically assigned to every job, which could be overlooked by users creating the job posting. Now admins users can make this field required (if assigning such a	RND-4613

category is a requirement), and therefore force the users creating jobs to select the correct EEO-1 job category.

ATS	ATS users initiating a resume review request are now able to attach the completed eForm(s) to the review request email.	RND-4624
ATS	With this ticket we made an update to the User Accounts page in the ATS. From now on, when a user first arrives on this page, the system will display only the active users.	RND-4918
ATS	With this ticket we added a new user based permission for allowing the logged in user to approve a requisition on behalf of one of the assigned requisition approvers. By default, this new permission is assigned to all Recruiting Manager, Recruiter & Admin users.	RND-4962
ATS	With this ticket we added the Original Posted Date field to the list of available fields for any Job/Postings Metrics report builder reports.	RND-5128
ATS	With this ticket we made an enhancement that will allow those hiring managers, who have been assigned the permission to move applicants into the offer & hired stages, to also initiate the offer approval process.	RND-5186
ATS	On the Candidate Resume Profile page under the Activity Status, we changed the label of the SET FLAGS button to now read SAVE.	RND-5365
Candidate Experience	With this ticket we added the ability to display "Non-Binary" as an option for the "What Is Your Gender?" question on Candidate Experience (CX) career sites. To enable, CX Admin users will need to switch out the current questions for the new "What is your gender?" (incl. non-binary option) question.	RND-3530
Candidate Experience	We increased the maximum allowed size of the image logo for Candidate Experience (CX) career sites from 80x40 to 150x50 pixels.	RND-4424
Candidate Experience	The flag for the phone number fields on the application forms of Candidate Experience career sites will now automatically switch to the country that the applicant selects for the "Country of Residence" drop-down, as long as the 'Country of Residence' drop-down is placed above the phone number field on the same page of the application form.	RND-4607
Candidate Experience	We made adjustments to improve the performance of the Candidate Experience (CX) career sites.	RND-4796

Candidate
Experience
